Talk to the Google Assistant. With your Google Assistant on Android Auto, you can keep your eyes on the road and your hands on the wheel while using your voice to help you with your day.

Android Auto

After Android Studio finishes building your signed app, you can either locate or analyze your app by clicking on the appropriate option in the pop-up notification. If you selected the option to export your signing key, you can quickly navigate to it by clicking the dropdown arrow in the bottom right corner of the popup to expand it and clicking Show Exported Key File, as shown in figure 5.

Sign your app | Android Developers

Apps provide multiple entry points. Android apps are built as a combination of components that can be invoked individually. For example, an activity is a type of app component that provides a user interface.. The "main" activity is what starts when the user taps your app icon, but you can take the user straight into a different activity from other places, such as from a notification or even ...
