Astronomy is the oldest of the natural sciences, dating back to antiquity, with its origins in the religious, mythological, cosmological, calendrical, and astrological beliefs and practices of prehistory: vestiges of these are still found in astrology, a discipline long interwoven with public and governmental astronomy. It was not completely separated in Europe (see astrology and astronomy ...

It might not be possible for every group to have three trolleys, and so groups may need to share. To ensure the elastic cords (given to one group of students) all stretch by the same amount for the same force, set up a testing rig as shown in the diagram.

Relationships between acceleration, force and mass

Modern flat Earth belief originated with the English writer Samuel Rowbotham (1816–1884). Based on conclusions derived from the Bedford Level experiment, Rowbotham published a pamphlet Zetetic Astronomy. He later expanded into a book Earth Not a Globe, proposing the Earth is a flat disc centred at the North Pole and bounded along its southern edge by a wall of ice, Antarctica.

Posted by Andrew Porter* Today, there is much greater awareness of the threat of Climate Change. Yet species loss, disruption of planetary systems, and widespread environmental degradation are allowed to continue. Over millennia, we have been very good at developing ways to respond to the environment; now the imperative is to develop the sharpness and capacity to respond to ourselves.

Explain what is Standard Deviation, Skewness and Kurtosis. Answer is kinda extra, because it was tough to find. Standard Deviation: a quantity expressing by how much the members of a group differ from the mean value for the group. The Standard Deviation is a more accurate and detailed estimate of dispersion because an outlier can greatly exaggerate the range (as was true in this example where ...
