Experts say it is not only possible, but that it is very likely that addiction recovery relapse will occur - and it doesn't mean the person has failed. It doesn't mean they will never get clean. Addiction is a chronic, relapsing disease that takes an immense amount of treatment, therapy and aftercare to control.

Why Do We Relapse in Drug Addiction Recovery?

The Psychology of Denial: When High-Functioning Addicts Can't See Their Addiction September 30, 2016 , Tyler Dabel Alta Mira Recovery Despite popular stereotypes, many people with substance abuse addictions lead functional-enough lives that they're able to hide their addictions beneath high-paying jobs and stable family lives.

The Psychology of Denial: When High-Functioning Addicts ...

Denial and its Effects on Addiction, Alcoholism and Relapse. Denial is the primary mechanism by which drug addiction, alcoholism and relapse are maintained, prolonged and worsened. In fact, some have questioned whether outright addiction could exist at all if not for a state of denial.

Denial and its Effects on Addiction, Alcoholism and Relapse

Other reasons people may relapse. No motivation. Maybe the person in recovery doesn't have any real goals or only put some down in a half-hearted attempt to satisfy the treatment therapist. Life may become a series of never-ending days of self-deprivation, a situation that seems devoid of hope and joy.

Why Do Some People Relapse After Treatment? - Addiction.com

Addicts must lie about getting their drug, hiding the drug, denying the consequences, and planning their next relapse. Eventually, addicted individuals end up lying to themselves. Clinical experience shows that when clients feel they cannot be completely honest, it is a sign of emotional relapse.
