How to Build Underground. Rob Roy is Director of the Earthwood Building School, which has specialized in cordwood masonry and earth-sheltered housing instruction since 1980. Rob and his wife, Jaki, have built four innovative cordwood homes for themselves since 1975, including the Earthwood home where they have lived since 1982.

How to Build Underground - Green Home Building Index

To cut the angle on bottom of the leg, turn the box right-side up and set it on a worktable with the legs tucked under. Place a block (or anything that will hold it up, we used a bucket) under the box so that the back of the platform is 12 inches off the tabletop.

How to Build a Regulation Cornhole Set | how-tos | DIY

A built-in fire pit is a glorified campfire, with sturdy walls of stone that help contain the flames and heat. That's especially important in the parts of the country where there's a risk of brush fires. So the first task in building any fire pit is checking local codes on open flames. The pit must ...

Living root bridges are a form of tree shaping common in the southern part of the Northeast Indian state of Meghalaya. They are handmade from the aerial roots of rubber fig trees (*Ficus elastica*) by the Khasi and Jaintia peoples of the mountainous terrain along the southern part of the Shillong Plateau. Root bridges have also been observed in the Indian state of Nagaland.
