Dexedrine Diet Pills

Re: Dexedrine is still the strongest diet pill made > They have come out with a bunch of weight loss medications in the last fifty years like Didrex, Tenuate, Phentermine, Mazindol, etc in an attempt to separate CNS activation from weight loss but all have proven unsuccessful at doing this except for fenfluramine which makes you sleepy.

Re: Dexedrine is still the strongest diet pill made ...

Best Answer: Dexedrine is an amphetamine. It is primarily used for ADHD along with Ritalin and Benzedrine which are also amphetamines. All amphetamines increase your heart rate and blood pressure and decrease your appetite. Although it is a stimulant, it can actually have a calming effect on your mood.

How good of a diet pill is Dexedrine? What does it do to ...

Dexedrine is the trade name for dextroamphetamine, a prescription psychostimulant medication. Dexedrine is primarily used to treat attention deficit hyperactivity disorder and narcolepsy, although it is sometimes used off-label as a weight loss aid due to its potent side effect of appetite loss.

Dexedrine for Weight Loss | Livestrong.com

Last week's post described the newly-approved weight loss pill Contrave, a combination of the stimulant bupropion and naltrexone. Contrave will compete with Qsymia, a combination of the stimulant phentermine and the anticonvulsant Topamax approved last year. Won't get fooled again..

A Blast from the Past: Amphetamines for Weight Loss | RxISK

Dexedrine (dextroamphetamine) was popular years ago as a diet pill, and it certainly can suppress appetite in the short term for most people. However, that effect tends to wear off over time, so either appetite returns or the dose gets raised, eventually to levels that are dangerous.

How good a diet pill is dexedrine (dextroamphetamine ...

Many people who aim to lose weight use diet pills and supplements to help them. However, not only do some of these pills contain chemicals with stimulant properties, but some prescription stimulants are prescribed just for weight loss. Learn the dangers of diet pills and stimulants.
