Critical success factor (CSF) is a management term for an element that is necessary for an organization or project to achieve its mission. Alternative terms are key result area (KRA) and key success factor (KSF).. A CSF is a critical factor or activity required for ensuring the success of a company or an organization.

Critical success factor - Wikipedia

Each CSF should be measurable and associated with a target goal. You don't need exact measures to manage. Primary measures that should be listed include critical success levels (such as number of transactions per month) or, in cases where specific measurements are more difficult, general goals should be specified (such as moving up in an industry customer service survey).
