God Hand is a PlayStation 2 action beat 'em up video game developed by Clover Studio and published by Capcom. It was directed by Shinji Mikami, and was released in Japan and North America in 2006, and in 2007 for PAL territories. It was re-released for the PlayStation 3 as a PS2 Classics downloadable game on the PlayStation Network on October 4, 2011. Mikami's desire was to create the game for ...

### God Hand - Wikipedia

A string figure is a design formed by manipulating string on, around, and using one's fingers or sometimes between the fingers of multiple people. String figures may also involve the use of the mouth, wrist, and feet. They may consist of singular images or be created and altered as a game, known as a string game, or as part of a story involving various figures made in sequence (string story).

You forgot to `#include <string>`. using `std::string` without including its header works on some compilers that indirectly import parts of `<string>` into their `<iostream>` or other headers but that's not standard and shouldn't be relied upon. Also they often break when you try to output a string since they only included a part of the implementation and are missing the part that implements the ...
