How To Start A Gardening

Want to learn how to start a garden, but not sure where to begin? In this post I'll cover the basic steps of gardening, and provide links to more detailed information so you can garden with confidence and have fun doing it.

How to Start a Garden - 10 Steps to Gardening for Beginners

One great way to avoid the threat of genetically modified foods, pesticides, and toxic additives is to start your own organic garden. While the garden can be as large or small as you'd like, the benefit of knowing exactly how your food was prepared and therefore what is in it is worth the time and effort that goes into it.

Organic Gardening 101 | How to Start an Organic Garden

Forest gardening is a low-maintenance sustainable plant-based food production and agroforestry system based on woodland ecosystems, incorporating fruit and nut trees, shrubs, herbs, vines and perennial vegetables which have yields directly useful to humans. Making use of companion planting, these can be intermixed to grow in a succession of layers, to build a woodland habitat.

Forest gardening - Wikipedia

CANNA Start is a balanced one-part nutrient for seedlings and (rooted) cuttings. CANNA Start can be used on various substrates like coco pellets, jiffy plugs, seedmixes and most other propagation media, except re-circulating systems and clone machines.
